The **Bernstein Conference** is organized by the Bernstein Network Computational Neuroscience. The network represents about 200 research groups from over 20 locations in Germany, covering all areas of modern neuroscience. It is one of the largest research initiatives in Germany and the only network in neuroscience of its kind in the world.

The **Bernstein Conference** is a single track conference that covers all aspects of Computational Neuroscience and Neurotechnology. We invite the submission of abstracts from all relevant areas.
